1. Claims 1-32 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art considered does not disclose nor fairly suggests an apparatus/method for cleaning an image transfer surface, having two cleaning stations supplied with cleaning fluids from respective tanks, where the two tanks are in fluid communication. The prior art considered, also does not disclose nor fairly suggest, a method of cleaning residual material from an image transfer surface where a first cleaning fluid is diluted by a second cleaning fluid as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Inventorship***

3. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to
